DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 20 through 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 20 recites the limitation of "form a plurality of p-type field effect transistors." However, claim 20 also recites forming a gate electrode, a gate insulation, and a source, and a drain.
4. A plurality of transistors would need more than a gate to be formed.
5. Claims 21 through 23 are rejected as incorporating the limitations of claim 20
